There were many amendments of a legislative character proposed by the senate; there were many amendments covering hundreds of thousands of dollars of claims pure and simple, proposed by the senate. One by one the legislative propositions and the claims disappeared as the senare receded, until we came to an amendment to pay the state of South Carolina \$47,000. A word as to that. In May last, on the omnibus claims bill, a basis was fixed for the adjustpen that basis and under that legis-ation the sum of \$100,000 in round umbers has been paid to the state of

"Under the same law which is the law today the auditing officers in the adjustment of accounts of the war of Carolina the sum of 34 cents. In nother body there are no such rules. two hours, ten hours, twelve hours. It is a matter of history that a senator is a matter of history that a senator on the Republican side in a former congress talked to death a river and harbor bill. There comes a time constantly in the settling of bills when you must do so and so or else your bill cannot pass, and this with reference to the great money bills. In my opinson such a condition existed as to this bill and clustered about this one amendant. There was also an amendment put on to the bill in another body which involved legislation to the extent of granting to the state of Vermont \$150,000 in adjustment of her war chalms. Now, what are we going to do about it? This bill contains many important matters—your appropriations for public buildings; legislation intely had all along the line of the public service to the extent of \$20,000,000.

"Now, I have taken the house into my confidence touching this matter, as it is my futly to do I am getting to be a somewhat aged man. I pray God that my life may be spared until an intelligent and a righteous sentiment, north and south, cast and west, pervading both the great parties, will lash anybody into obedience to the right of the majority to rule, Majorities and minorities shift back and forth. Ah, says somebody, did that work in refresees to the matter of statehood, and did you believe in statehood and I am putiling now the strongers, assessing not believe in statehood and I am put-cing now the strongest case against my own party, but a majority of the people, voiced in the senate and house, had the right to have its will ex-

PRESIDENT WAS KEPT BUSY SIGNING THE BELATED BILLS

Washington, March 4.—President Roosevelt, accompanied by Secretary Loeb and two or three members of the White House executive force, arrived at the capitol shortly after 10 o'clock today. He was joined soon afterwards by the members of his cabinet.

While the business of the senate was being concluded, senators and members of the house called upon the president in his room, some of them taking to him bills in which they were interested personally. All measures presented for signature were scanned arefully by the president and members of the cabinet who were interested in them. After being entered by the executive clerks in the White House record they were signed by the president.

Gentlemen: - After suffering for four years

is no medicine which will so surely cure rheumatism as Kick-

acid in the blood, and supplies the drained and exhausted body with the vitality which has been undermined by the

disease. It tones up every organ of the body into a combined

healthy action, with the result that the poisonous impurities
